

## Happy New Year from Hinkle Dentistry!

It's well into January but we wanted to take the time to wish you a Happy 2022!

We hope that you were all able to gather together with family over the holiday season and experience some of the togetherness we've lost over these nearly two years. **The Hinkle family** sure did! Alan is enjoying retired life! He and Rosemary have been loving spending lots of grandparent time with Henry and Lucy.

The past year has seen its share of challenges for all of us. As we look forward to 2022, we are excited about all that's to come! Our loyal hygienist, Elissa, has retired from her operatory and has moved into an administrative role. You'll still see her smiling face and get to hear all about her daughter's wedding, but she's delivered her last warm towel!

We're so excited to introduce our new hygienist! After eight long months of searching for a worthy replacement, we have hired an absolute superstar in **Adriana Khachi!** She's warm, friendly, and completely dedicated to providing excellent care to all of her patients. She loves martial arts, yoga, and lifting weights, trying new restaurants, and going to Caps games with her boyfriend. **CAPS! CAPS! CAPS!**

We're also thrilled to announce an exciting, innovative dental cleaning technology at Hinkle Dentistry! In mid-January, we added new **EMS AIRFLOW™** systems into each of our hygiene rooms. This innovative technology combines pressurized warm water and a specially-formulated powder to clean teeth more thoroughly above and even below the gum line (especially in areas that are harder to reach with traditional instruments). The EMS System offers a much more comfortable dental experience, all while being far more effective at reducing plaque, stains, and even young calculus. Dr. Hinkle has been researching this type of technology for several years and believes the EMS AIRFLOW™ offers the least invasive, most effective dental care on the market today. Research has shown that this allows us to do better and here at Hinkle Dentistry, we are!

We are so excited for the year ahead and encourage your feedback on any or all of our newest additions. If it's been a while since we've seen you, we encourage you to make an appointment! As Mardi Gras and the Olympics approach, our office promises to be awash in purple, green, and gold (and red, white, and blue)!

**Looking forward to seeing all of your smiling faces in 2022!**
